# Peninsula Voice Why, Who & How

## Why Peninsula Voice?

Peninsula Voice aspires to build a more just and compassionate community through understanding and connection.

---

## Who is Peninsula Voice?

Peninsula Voice (PV) is an incorporated, not for profit community association. PV is managed by a committee of volunteers and supported by a wider network of individuals and community organisations.

---

## How Peninsula Voice operates?

Peninsula Voice has a strong desire to make a positive difference in our community, by shining a light on the root causes of social disharmony and disconnection. We facilitate public conversation and forums using the latest evidence-based research, open discussion and the personal story. We gather community leaders, acknowledged experts, recognised bodies and community members to engage and wrestle with a relevant social topic.

PV assumes a neutral, non-political viewpoint to begin a process of self-determination.

Our conversations are encouraged to help individuals better cope and grow through life's many and varied challenges and to create a healthier and stronger community.

---

***'Our members and volunteers experience personal growth through active contribution and service'.***
